Year 5

Masie

Year 6

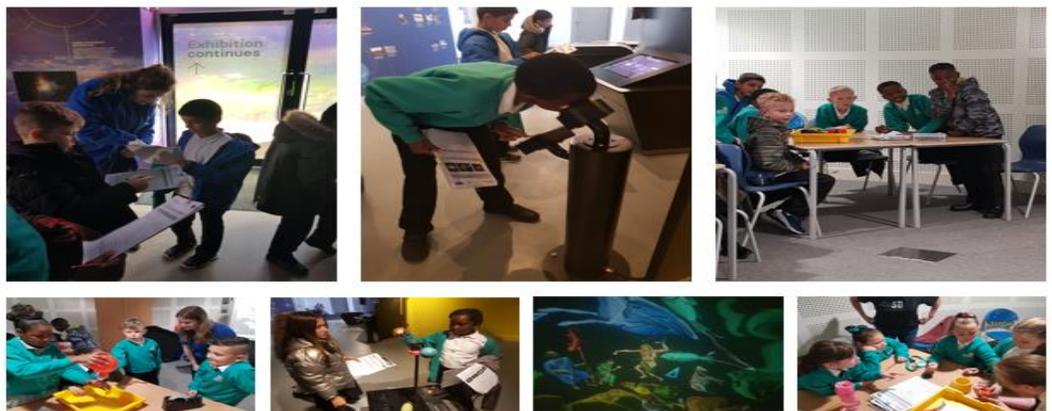

UPDATES

It's been a very busy week here at Blackley Academy. Already children in Year 5 have taken part in a Knifecrime workshop, which provoked a really good discussion between the facilitators and the children.

Mr Hughes had his first 'Headteacher's lunch' as a special treat for those children who won the headteacher award.

Year 5 visited the Lovell Telescope at Jodrell Bank last Friday . Whilst there, they took part in several workshops, including the Mars Rover Challenge and Inflatable Planetarium. Also, they visited the Space Pavilion and the Planet Pavilion.

They learnt so much about space during the school trip, they can't wait to learn even more during their topic!

HEAD TEACHER'S AWARD!

Theresa Marie –
Upper KS2

Gracie – Lower KS2

Emma – KS1

Grace-EYFS

100 % Attendance Awards

Pupil Awards - Winning the grand prize of a cinema vouchers.....

Ula (Year 2) & Alfie (Year 4)

Notes from the Garden, 20th September 2019

Although it is the start of a new school year and officially the start of autumn tomorrow, already we need to be thinking ahead to next years growing season. This means there is still some harvesting to be done and then the hard work of clearing away old crops and weeds, ready for next year. In terms of harvest, the main crops are the from the fruit trees, specifically the apples and pears. We have had a good summer for them and the harvest has been good. In fact, the weight of fruit on some of the young trees has put them under considerable strain.

Most of the wild-flowers in the garden area have now gone over, but will have hopefully set seed to give another glorious display next year. The new 'nectar bar' in the Nursery Garden has surpassed all expectations and as well as looking absolutely magnificent has fulfilled its role in attracting bees and butterflies, especially when we have had some late summer sun and warmth
